

Get Complete Access to ALL of An-E's predictions, every day, for nearly 3,000 stocks

Hi, Keith Kaplan here again.

And I want to tell you about a massive upgrade available to your *Predictive Alpha* membership.

This upgrade is available because you're a new member... and I wanted to make sure you didn't miss out...

Because it could give you a chance to make a lot more money using this service, and by a huge margin.

Allow me to explain...

As a *Predictive Alpha* subscriber, you're able to use our An-E system to look up one stock prediction per week, every week.

And while that'll give you a huge edge in the markets (you'll get great A.I.-driven insights into stocks that almost no one on or off Wall Street has access to...)

It's nowhere near as good as it could be.

Because you could have *total and complete access* to our breakthrough new A.I. prediction system — such that, you could look up any of the stocks we offer predictions for (nearly 3,000) whenever you wanted, as much as you wanted.

What is An-E saying about the future price of Apple?

What is it predicting about the future price of Tesla?

Of Boeing?

Of Ford?

You can find out... not just once a week, *but every day*... on nearly 3,000 stocks.

So, how do you get complete access to An-E and its predictions?

It's simply a matter of upgrading your membership from *Predictive Alpha*... to our flagship research service called *Predictive Alpha Prime*.

You see, *Predictive Alpha* is an incredible research service in its own right.

But, it's our entry-level service.

Our "base model," if you will.

We offer something better...

A premium-level research service.

One that comes "fully loaded," all the bells and whistles...

And that's *Predictive Alpha Prime*.

Chief among the extra features you'll receive when you upgrade is what I just mentioned: complete access to our An-E stock forecasting system.

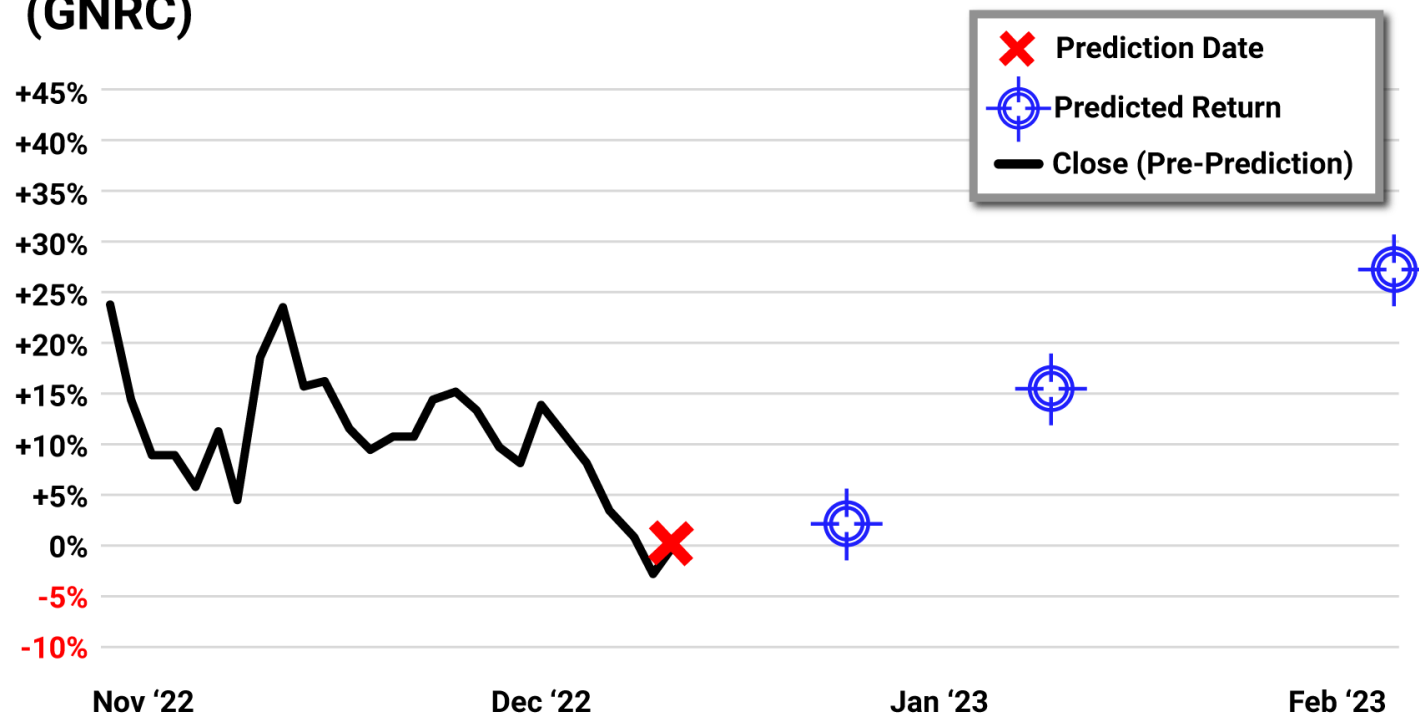

I bring this up again because it's such an important feature... and represents a HUGE upgrade from *Predictive Alpha*.

With *Predictive Alpha*, you're limited to only looking up one stock prediction per week.

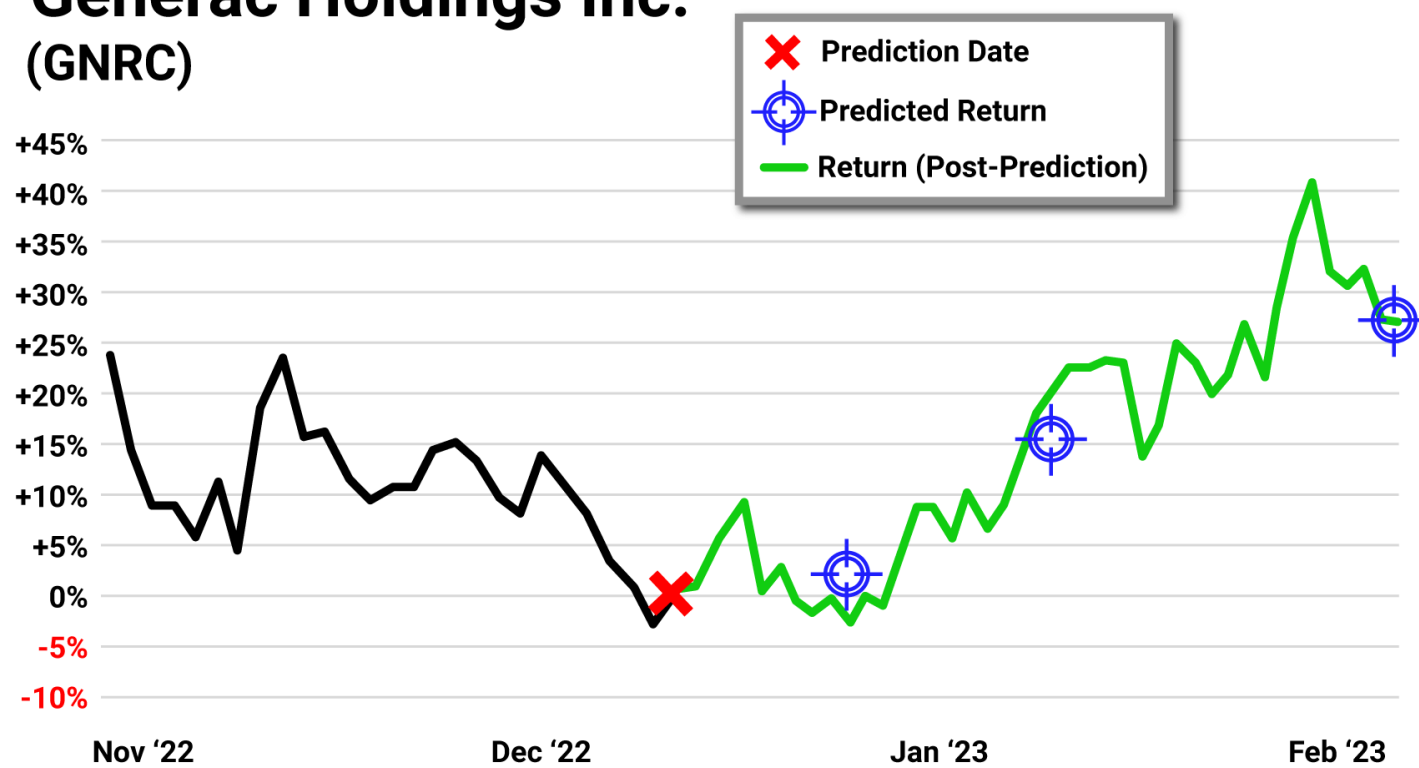

But, with *Predictive Alpha Prime*, you can look up as many predictions as you want, whenever you want.

You can look up predictions like this one of a company called Generac Holdings (GNRC)...

Generac Holdings Inc. (GNRC)

Generac Holdings Inc. (GNRC)

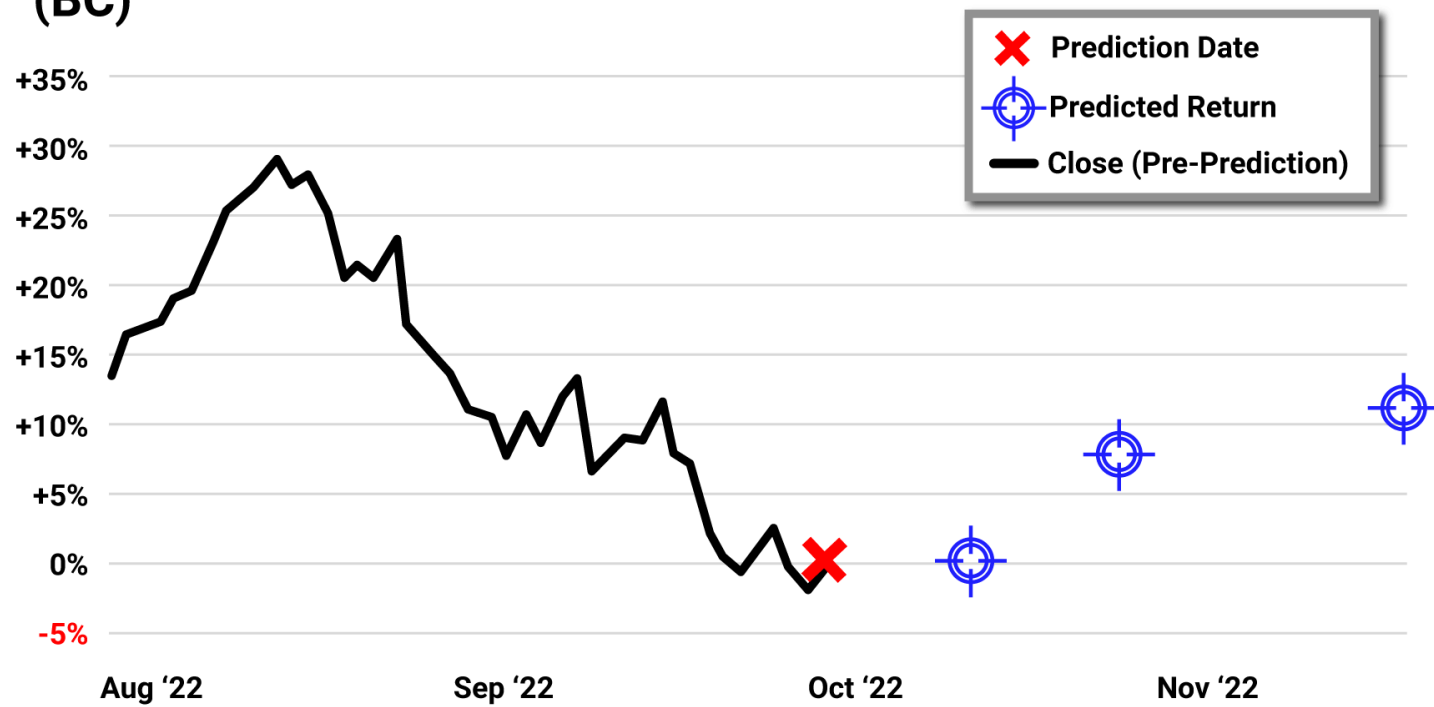

Where you could have made 18% in a month.

Or this prediction of a company called Broadridge Financial Solutions...

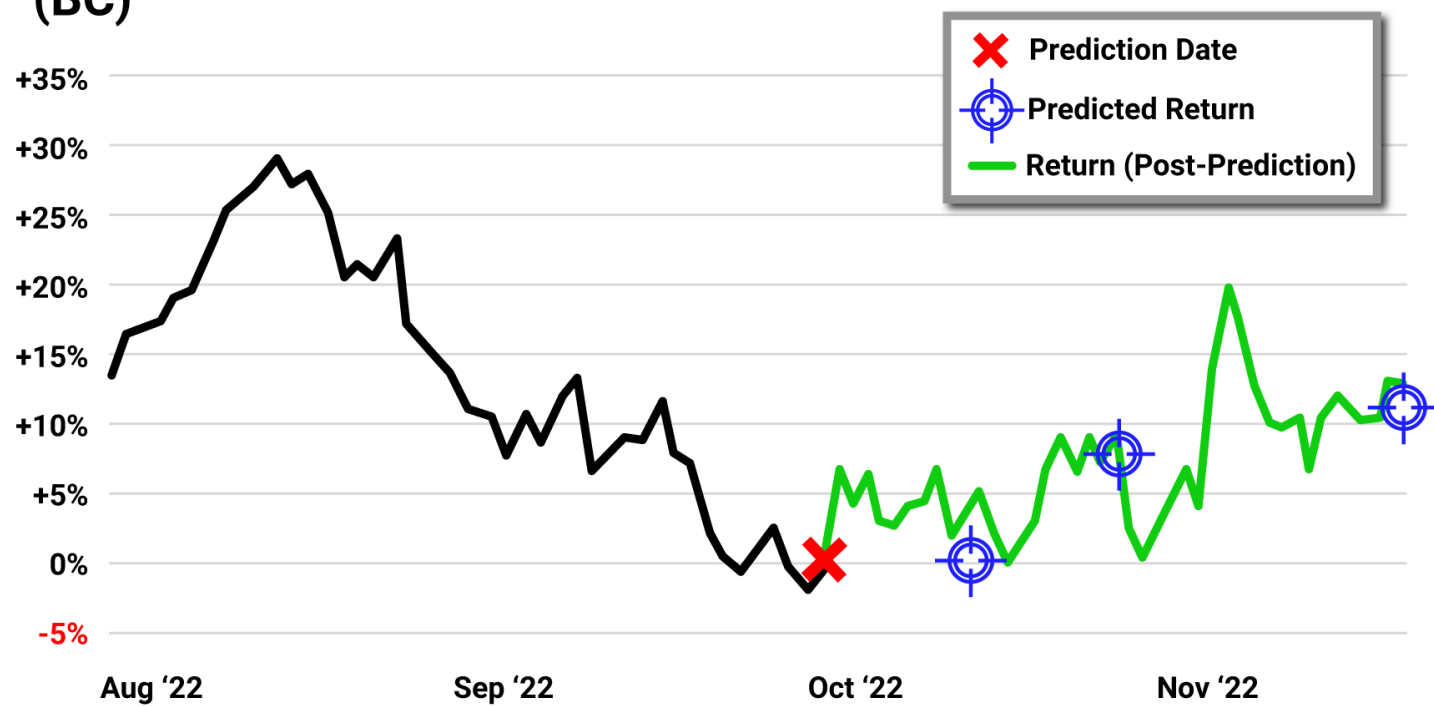

(BR)

Brunswick Corporation (BC)

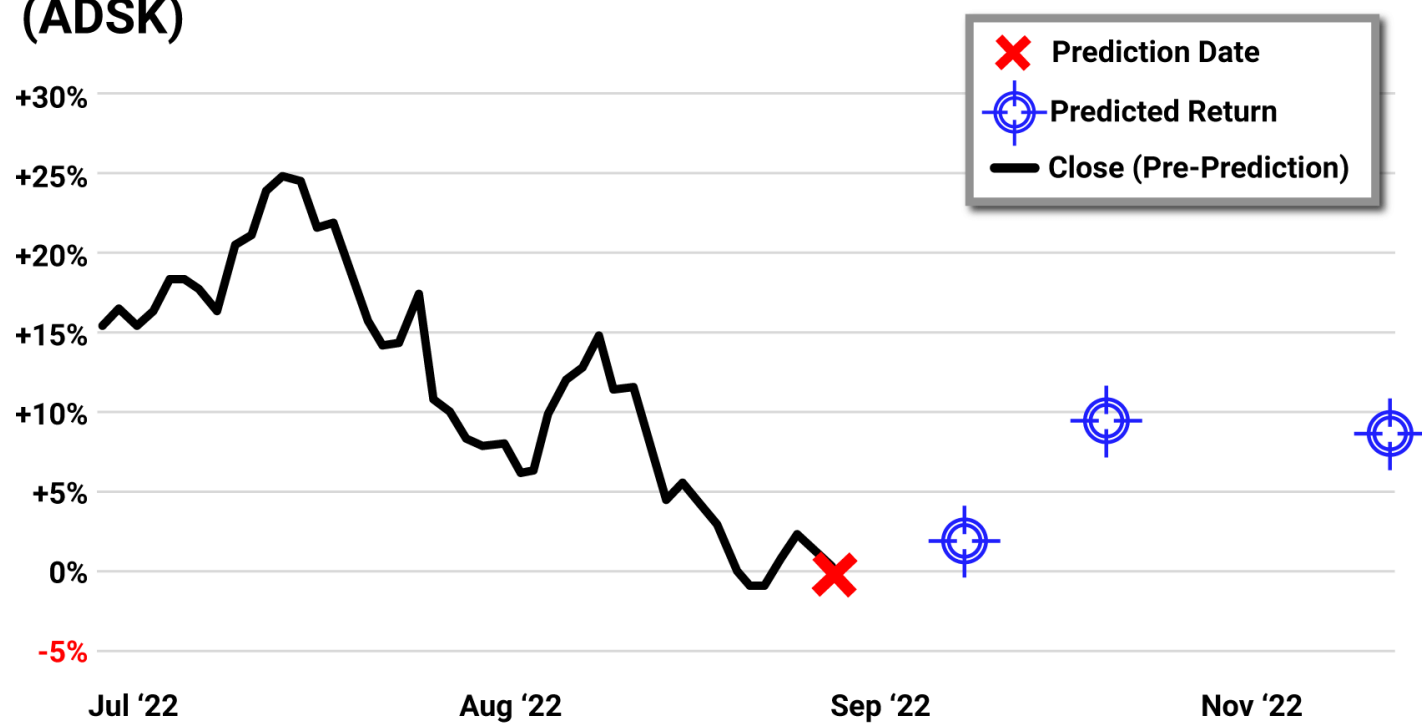

Brunswick Corporation (BC)

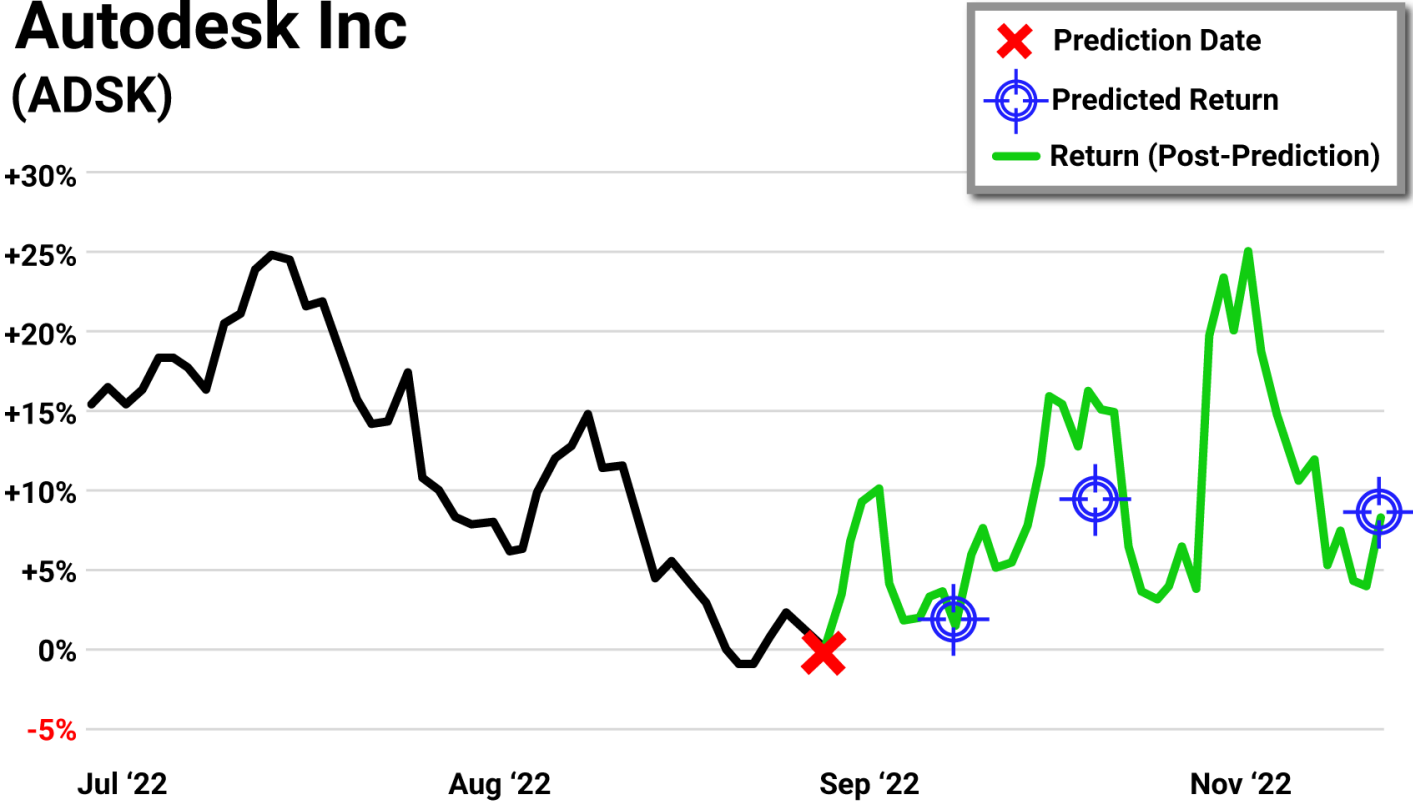

Where you could have made 9% in a month.

Or this one of Autodesk...

Autodesk Inc (ADSK)

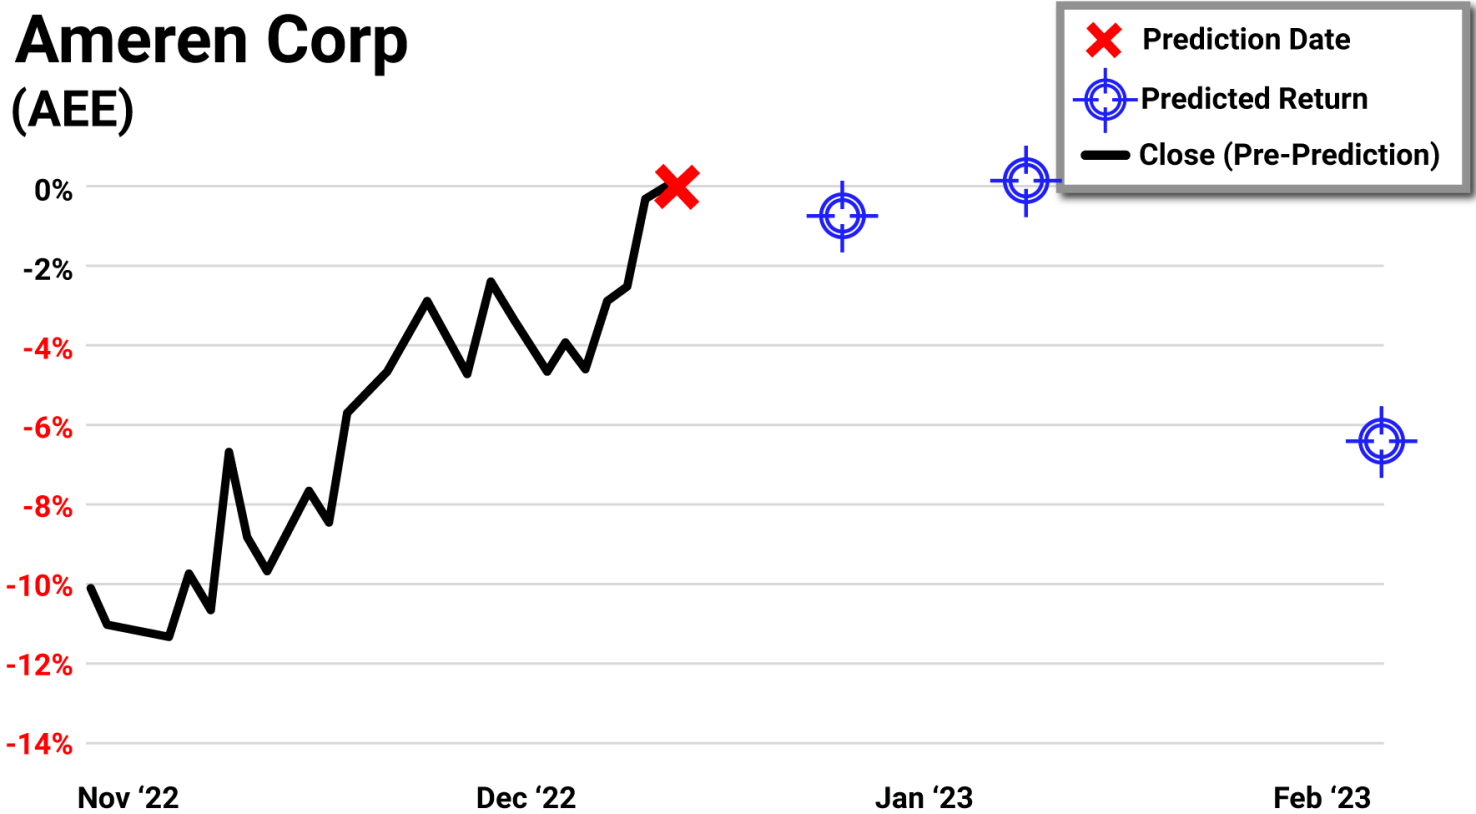

Autodesk Inc (ADSK)

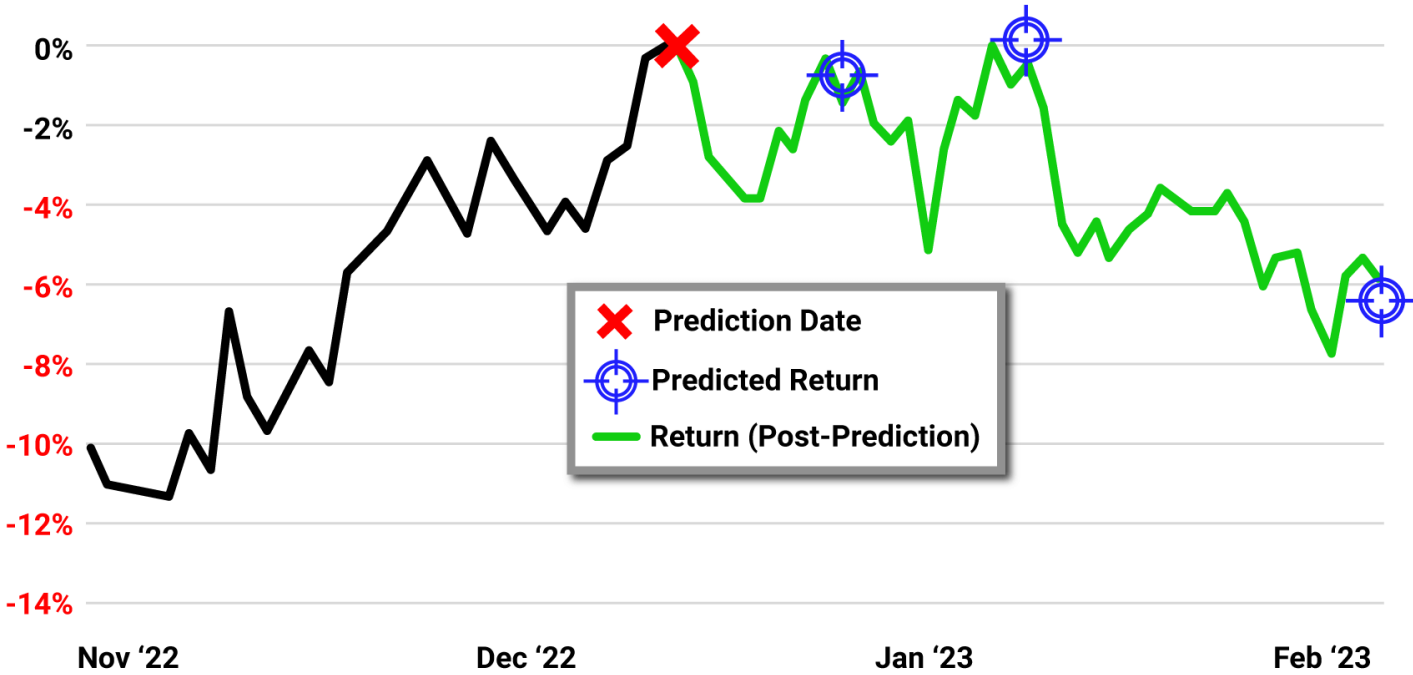

Where you could have made 15% in a month.
Or even this one Ameren Corp...

Ameren Corp (AEE)

Ameren Corp (AEE)

Where you could have avoided a big loss.

And on top of complete access to our An-E algorithm, by upgrading your membership, you'll also receive four stock recommendations every month from our team of experts rather than just the two you receive now as a member of *Predictive Alpha*.

That's one new opportunity nearly every week to make massive gains in just a month... instead of just one nearly every other week.

So, with four recommendations per month and A.I.-driven predictions of nearly 3,000 stocks at your fingertips... I'm sure you're thinking *Predictive Alpha Prime* is quite expensive.

And you're right.

We charge folks a lot of money to access this research. It's a premium research service. We know its value and it's not cheap.

The retail price of *Predictive Alpha Prime* is \$5,000.

But, because you're a brand-new member of *Predictive Alpha*, right now, you can claim a new-member discount and become a member of *Predictive Alpha Prime* for a whopping 64% off...

And only pay \$1,799.

But, again, this incredible offer is only available to you now because you just signed up for *Predictive Alpha*.

Once you click off this page, this offer will disappear and you won't be able to access it.

You'll still be able to become a *Predictive Alpha Prime* member if you decide you want to later...

But you'll have to pay the full retail price of \$5,000.

So, this is your chance to save a whopping \$3,200.

And trust me, when you start using our An-E algorithm and see how accurate it is and how much money it could make you... you'll want to use it more than once per week, you'll want to use it all the time.

But you'll only be able to do so if you become a member of *Predictive Alpha Prime*.

So, I encourage you to sign up right now, gain full access to nearly 3,000 stock predictions, whenever you want... for just \$1,799.

Plus, you're covered by our 90-day credit guarantee. If for any reason you're unsatisfied with *Predictive Alpha Prime*, contact us within the first 90-days and you can use your full subscription price as a credit toward any other TradeSmith product. Just please note, we cannot offer cash refunds.

To sign up, simply click the “YES” button below and we will charge you an additional payment of \$1,799 to access one full year of *Predictive Alpha Prime*.

YES!
Please upgrade my membership to *Predictive Alpha Prime* which includes everything mentioned here.

No THANKS, I don't want to upgrade right now, I'd rather decide not to upgrade or to upgrade later at a price \$3,200 higher than what is being offered today.
