

# One more thing before you go...

Hi, Keith Kaplan here again.

We have confirmed your membership to *Predictive Alpha* and are now processing your order.

But before you continue on, there's one more thing I wanted to make you aware of regarding our work...

It's an opportunity that could save you a lot of time — and money — while giving you access to some of the best investment research in the markets.

I'm talking about my *Elite* Membership program.

If you thought my 1-year membership was a great deal... then this is a downright steal.

If you're not familiar with our *Elite* Membership program, please realize that it's about a much, much better way to learn how to benefit from my team's research and recommendations than a conventional subscription.

Remember, with *Predictive Alpha* we're capitalizing on the market's short-term moves.

Our goal is to recommend the most explosive companies, targeted by A.I., hold them for roughly one month... and then sell them for huge gains.

And do this month after month, compounding the gains with each winning trade.

When you invest this way, even modest wins can take on a "snowball effect" and add up to huge gains.

Making 15% here, or 20% there doesn't seem like much in the short-term, but do that month after month and you could pile up serious wealth...

Which means, the longer you employ this strategy, the wealthier you could get.

Sure, you could see some substantial gains after a year of using our research.

But if you want the chance to experience real wealth, generational wealth... we recommend you use it for years to come.

We showed in our presentation how making 8% per month would turn every \$10,000 into \$25,000 in a year.

Well, what if you took that same 8% and compounded it over two years instead of one year?

That would turn that \$10,000 into \$63,000.

And every \$25,000 into \$158,000.

What about it extending it out to three years?

Now that \$10,000 would turn into \$159,000.

And that \$25,000 would turn into nearly \$400,000.

What if you dialed the return up just a notch to just 12%?

After two years that \$25,000 would be worth \$379,000.

And after three years it'd turn into nearly a whopping \$1.5 million.

Of course, these are just examples, they're not based on our performance.

But do you see what I'm getting at here?

*Predictive Alpha* has the potential to be an incredibly lucrative research service...

But it could be even more lucrative the longer you use it, and exponentially so.

In other words, our approach could help you grow truly wealthy if you stick with it.

We've also produced a lot of educational material that will help you learn how to become a better investor.

By reading our educational materials and research over a period of years, you'll grow and compound your knowledge... you'll learn how to grow and compound your wealth... and you'll stand a great chance at succeeding in the market.

This is why I'd much rather enter into long-term "partnership" with you.

And that's what you'll receive with our *Elite* Membership program.

As an *Elite* Member, you'll receive our *Predictive Alpha* research service for as long as you want — access to our An-E system, every recommendation, every special report, every update — as long as it is published.

It is by far the best way to ensure you receive our A.I-driven research for the best possible price.

To make this decision a "no brainer" for you, we have created an extraordinary offer.

## PREDICTIVE/ALPHA

If you let me know today, you can secure an *Elite* membership to *Predictive Alpha* for just \$199.

The only other fee you'll ever pay is a small \$29 annual maintenance fee, to help cover our ever-increasing publishing costs and ensure you have continued quality customer service care anytime you need it. Without this fee, we could not make this offer.

And that's it... that's all you'll pay... ever... no matter how much other people pay for a similar subscription in the future.

KEEP IN MIND: The regular retail price for this research for a SINGLE year is \$199.

That's right...

You can get access to this research for as long as you want... for the price of one year at the regular price.

Do you see how incredibly valuable this is?

It's the absolute best deal you'll ever see for *Predictive Alpha*.

## Why This Might NOT Be For You

If you're not ready to make a commitment of more than one year, this service might not be right for you.

Think of it like buying a house. If you're going to move away in 12 months, buying doesn't make much sense.

Offering an *Elite* subscription is more attractive to our research firm as well.

By focusing on long-term relationships, we avoid working with gamblers who want just a few hot picks. Those people are virtually guaranteed to fail.

I'd much rather work with serious folks who know the value of high-quality research. I'd much rather see people get the maximum benefit from what we do.

If that sounds like you, consider "upgrading" your annual subscription to an *Elite* membership.

I've intentionally made it so easy and such a no-brainer bargain because it's a "Win-Win" for both of us.

But if you're interested, please act now.

If you click out of this page, you will NOT be able to get back to this particular offer. It's available to you right now, only because you just joined as a charter member.

We will cancel your previous transaction and charge your card this one-time payment of \$199 (and then the small \$29 annual maintenance fee every year after).

And keep in mind, you still have the next 60 days to make up your mind.

What I mean by that is: If you decide at any point during the first 60 days that this *Elite* membership to *Predictive Alpha* is not for you, simply call our U.S.-based Customer Service team, and they'll issue you a prompt refund, for your full \$199 payment.

Let me know if you want to take advantage of this *Elite* membership offer, by clicking on the appropriate link below.

# YES!

Please start my *Elite* Subscription to *Predictive Alpha* which includes everything mentioned here.

[NO THANKS, I don't want access to all of this other great stuff from Keith and his team, and I'd rather decide whether or not to upgrade \(at a higher price\) later.](#)

By completing your order today, you agree to our [Terms of Use](#) and [Privacy Policy](#). Your purchase today of *Predictive Alpha Elite* will make you a member of this service. Your service will automatically renew on an annual basis until you properly cancel. At the renewal date for your *Predictive Alpha Elite* subscription, TradeSmith will charge a maintenance fee of \$29 (plus applicable taxes) to the credit card or other means of payment on file. You may cancel your service at any time by contacting our Customer Success team at 866-385-2076 or by [clicking here](#). (Please allow two (2) business days to process your request. Major U.S. holidays may slightly delay processing.) To cancel without incurring such fee, you must do so one day prior to the renewal date.

TradeSmith would like to share with you important news and promotional offerings about other products and services that we think would be of interest to you. Please note that by clicking "YES! Please start my *Elite* Subscription to *Predictive Alpha* which includes everything mentioned here." to order this product(s), you agree to receive our marketing and free editorial emails from our analysts, from which you can opt-out at any time by following the instructions. Please note we will still contact you concerning the servicing of your subscriptions and accounts.
